Dear Esteemed Guests,

In the spirit of "上善若水" — where the highest virtue is akin to water's gentle yet pervasive nature — thank you for coming to our celebration of NJCACC 20th anniversary, your presence tonight makes this celebration complete.

Just as water embodies the finest qualities of adaptability, resilience, and unity, we come together to celebrate the achievements and endeavors that have defined this remarkable year. The Gala is a testament to the collective strength and spirit of our community, a celebration of achievements that have gracefully flowed through the challenges.

This year's gala symbolizes our shared journey, a journey that reflects the ethos of "上善若水." We, like water, have navigated through the twists and turns, carving paths of progress and innovation. Each drop contributing to a greater whole, exemplifying the collective power of our dedication and vision.

During the Gala, we will honor individuals and teams who have embodied this principle, displaying exceptional dedication and adaptability. We celebrate those who have effortlessly merged their unique talents and contributions, forming a cohesive and powerful force, much like the unifying nature of water.

We invite you to join us in embracing the essence of "上善若水" — to embody the highest virtues of humility, adaptability, and perseverance. Together, let us flow seamlessly through the journey of this gala, leaving ripples of inspiration and unity in our wake.

Thank you

Yin Long

GOVERNOR

October 12, 2023

Dear Friends,

It is my pleasure to welcome all those gathered to commemorate the New Jersey Chinese American Chamber of Commerce's (NJCACC) 20th Anniversary during today's Gala and Awards Banquet.

In celebration of two decades of exceptional service to New Jersey residents in the Chinese American business community, it is my honor, as Governor, to commend the NJCACC for their hard work and astounding dedication. The support given by your organization is what makes New Jersey a home for many Chinese American businesses, and I am proud to have the opportunity to recognize this accomplishment today.

Tonight's honorees demonstrate exceptional leadership and extraordinary contributions to their communities: Keynote Speaker and acclaimed entrepreneur, Emmy-winning TV host, author and humanitarian, Yue-Sai Kan; Real Estate Mogul Sir Gary Kong; CEO of Princeton NuEnergy Chao Yan; Assistant Dean of RWJ Medical School Dr. Karen Lin; Co-Founder of Rendr and Twiage John Hui; CEO of iStar Group Tony Cheng; Partner of BDO USA Larry Miao; Writer and Editor in Chief of North America Hanyuan Classical Poems Association Ralph Gong; and Director of Starry Arts Group of Children's Chorus Rebecca Shen. These honorees stand out in their impressive achievements, which have made the world, and New Jersey, a better place for all.

I am sending my best wishes for your event and look forward to seeing all that the NJCACC accomplishes in this coming year. I, along with the State of New Jersey, applaud the work that you do, as you continue to enhance and empower the business needs and interests of Chinese Americans throughout our Great State.

My very best,

Philip D. Murphy

Dear Friends,

It is a pleasure to extend my warmest greetings as you gather for the New Jersey Chinese-American Chamber of Commerce Gala and Awards Banquet. I would especially like to congratulate tonight's honorees for their steadfast commitment to the mission of the New Jersey Chinese-American Chamber of Commerce.

Since its inception, the New Jersey Chinese-American Chamber of Commerce (NJCAACC) has been continuously promoting Chinese and Asian-American businesses and supporting its members through workshops, networking events, and educational opportunities. As a member of the United States Senate Committee on Small Business and Entrepreneurship, I value the significance of supporting small businesses and the contribution small businesses make to our economy. I am grateful to this organization for its dedication to ensuring that young, hard-working business leaders are given every chance to grow, thrive, and prosper.

Congratulations on tonight's event and I look forward to your continued success!

Sincerely,

NEW JERSEY THIRD CONGRESSIONAL DISTRICT

October 12, 2023

I want to extend my warmest thanks and congratulations to the New Jersey Chinese-American Chamber of Commerce (NJCACC) as you celebrate your annual gala and for your distinguished service to the AAPI community.

As the son of Korean immigrants, I recognize and appreciate the unique role that NJCACC plays in the lives of Asian American community members in New Jersey, including those in our 3rd District. This community has a strong history of contributions to the United States as entrepreneurs, business owners, leaders, community organizers, public servants, and more. The work you have done to help Chinese American and Asian American businesses thrive and integrate into the American economy, while also providing opportunities for networking and educational workshops is inspiring.

It is an honor to be the first Asian American Member of Congress to serve the state of New Jersey, and one of only four Korean Americans currently serving in Congress. Being a part of this diverse and exceptional community is likewise a privilege and I look forward to continuing our work together.

While I cannot be with you all tonight, please accept my warmest wishes for an exceptional gala. Thank you for all that you have accomplished in supporting the AAPI community, I wish you continued success in achieving your organization's mission.

Sincerely,

Andy Kim

Yue-Sai Kan

Yue-Sai Kan is an Emmy-winning television host and producer, successful entrepreneur, fashion icon, bestselling author and humanitarian. People magazine called her "the most

famous woman in China" and Time magazine proclaimed her "the Queen of the Middle Kingdom."

In 1972, Yue-Sai created the weekly television series "Looking East", the first of its kind to introduce Asian cultures and customs to American audiences. The series garnered critical acclaim and won dozens of awards. In 1984, PBS invited Yue-Sai to host the first live broadcast of a television program from China on the occasion of the 35th Anniversary of the People's Republic of China. Two years later the television series "One World" produced and hosted by Yue-Sai aired on China's national television

A W A R D R E C I P I E N T S

network CCTV, with a weekly viewership of 400 million. It was then the first time a non-Chinese citizen hosted a TV series in China and made her a household name. With her broadcast in both China and the United States, she was then the most watched woman in the world!

In 1992, Yue-Sai created the Yue Sai Cosmetics brand which grew into China's leading Cosmetics Company, selling products in more than 800 outlets through 23 regional companies in China's major markets. More than 90% of the Chinese population today recognizes the brand, which was purchased by L'Oreal in 2004. Additionally, she has written 10 best-selling books, and in 2000, became the first and only living American featured on a Chinese government-issued postage stamp.

Throughout her life, Yue-Sai has been deeply involved in charity work. She served and is still serving on the boards of a number of prominent charitable organizations in China and the United States, including the Shanghai Soong Qing Ling Foundation, Citymeals on Wheels, the Ellis Island Honors Society and Prince Albert of Monaco's Philanthropy Round Table, etc. For years, Yue-Sai was chairing the Miss Universe China Final Pageant which she turned into the most glamorous charity ball in Shanghai. Annually it raised millions to support orphanages, cleft lip and palate correction surgeries and scholarships for students in China's best music, TV and film schools.

Yue-Sai is also the Chairwoman of China Institute, a 96-year-old organization whose mission is to advance a deeper understanding of China through programs in Chinese language, culture, art, culinary art, and business. Her own charitable foundation Yue-Sai Kan China Beauty Charity Fund has been providing scholarships for Chinese students at

the Fashion Institute of Technology and established sustainable fashion educational programs for executives and professionals at Chinese fashion companies. She is a member of the Committee of 100 and was ordained a Dame of Malta in 2022. In 2022, the Schlesinger Library at Harvard University acquired her entire life archival material to further scholarship and the understanding of the history of women in America. In 2023, Yue-Sai Kan China Beauty Charity Fund evolved into Yue-Sai Kan One World Foundation committed to prompt respect, tolerance and cultural inclusivity among individuals, societies and cultures around the world.

As a Minority Owned & Disadvantaged Business Enterprise (MBE/DBE certified), we believe in hard work and equal opportunity in employment. TSCC is a union contractor and member of the GCA. We provide "turn key" solutions to most simple and complex underground foundation problems; including permits, pile drilling, in-situ soil remediation, groundwater control and treatment.

Construction Dewatering

Construction Dewatering is the removal of groundwater from soils via pumping. Usually dewatering occurs prior to excavation for the purpose of lowering the water table and/or removing perched water. Dewatering is necessary in cases where water is found within your excavation and creates difficult or even unsafe working conditions.

TSCC provides Permitting, Dewatering services including systems design, installation, operation and maintenance. Dewatering methods include Deep Wells, Wellpoints, Ejectors and Sumps.

Groundwater Treatment

Groundwater Treatment is the process of removing contaminants from groundwater to discharge clean water. Some projects are known to be contaminated like Superfund or Brownfield sites that the groundwater is found to be contaminated.

TSCC is capable of designing a site-specific temporary or permanent treatment system based on contamination levels and flow rates to meet state and/or local discharge standards.

Geotechnical Services

While Geotechnical Services are very broad TSCC focuses on subsurface drilling like micropile Installation, Hollow Bar micropiles, large diameter caissons (up to 8'), H piles, soldier beams for temporary earth retention, and Tie-backs for SOE.

Environmental Remediation

In-situ chemical oxidation (ISCO) has become one of the most popular site remediation solutions to reduce the concentrations of targeted environmental contaminants to acceptable levels. ISCO is accomplished by injecting or otherwise inducing strong chemical oxidizers directly into the contaminated medium (soil or groundwater) to destroy chemical contaminants in place.

TSCC uses direct push technology to provide operational flexibility compared to traditional injections.

About Us

Established in 2016, TSCC is a NJ based construction subcontractor focused on work within the NYC metro area. Our management team has over 70 combined years of experience in the industry. We have deep knowledge of each and every component of deep foundation work.

With some of the most up to date (owned) equipment and some of the best expertise in the business, we provide solutions and work with you to meet any needs you may have.

We have experienced in-house engineers capable of value engineering. All of our work is executed with a high degree of professionalism while maintaining the highest of safety standards.

TSCC is a certified MBE & DBE firm committed to excellence.
